NVIDIA AI Certified • Software Cyber & IT Solutions

PROFESSIONAL SUMMARY

Dedicated professional with over 4 years of experience in security operations, customer service, and leadership. U.S. Navy Security Specialist skilled in managing security functions, enforcing safety protocols, and leading teams. Proficient in customer relations, problem-solving, and ensuring satisfaction. Aspiring software developer with expertise in analytics, programming (C++, Python, SQL), and AI, seeking an entry-level position to apply technical skills and contribute to innovative solutions.

TECHNICAL SKILLS & QUALIFICATIONS

- **Programming Languages:** PHP, JavaScript, CSS, C++, C#, Python, HTML, Swift
- **Frameworks:** .NET, OOP
- **Tools & Software:** Linux, Microsoft Office Suite, Visual Studio, GitHub, Android Studio, X Code, Power BI, Jupyter
- **Relational Database Management:** MySQL, Oracle
- **Concepts:** Mobile App Development, Web Development, Data Analysis, AI/ML

EDUCATION

Bachelor of Science (BS) in Information Technology - *Analytics and AI/ML*   **March 2026**
ECPI University – Virginia Beach, VA

Bachelor of Science (BS) in Computer Information Science - *Software Development - Web Based*   **March 2025**
ECPI University – Glen Allen, VA

CERTIFICATIONS

- **NVIDIA Fundamentals of Deep Learning AI**   **October 2024**
- **Microsoft Excel, Word, PowerPoint Level 1 & 2**   **March 2023**

PROFESSIONAL EXPERIENCE

Software Developer   **March 2025 – Present**
ECPI University | Virginia Beach, VA

- Develop and maintain responsive web applications using C#, ASP.NET, JavaScript, HTML, CSS, Bootstrap, and SQL Server.
- Design, implement, and optimize SQL Server database solutions, including **views**, **stored procedures**, and custom scripts using SSMS.
- Build dynamic, user-friendly front-end interfaces while integrating secure and efficient back-end logic with **.NET** technologies.
- Develop and maintain SSIS packages to support data integration, transformation, and system workflows.
- Collaborate on full-stack projects to ensure seamless integration between front-end components and back-end data processing.
- Improve database performance and data integrity through query optimization and indexing strategies.

Security Inspector   **April 2023 – March 2025**
Cennox, Assigned to Bank of America Data Center | Richmond, VA

- Trusted with unrestricted access to all areas of the Bank of America Data Center, conducting thorough inspections of security cameras, door access readers, and other security devices.
- Prepare and deliver detailed weekly reports on the status of security systems, identifying potential vulnerabilities, and recommending necessary corrective actions.
- Collaborate closely with security teams and technical staff to resolve system malfunctions, ensuring all issues are addressed swiftly and compliance with safety protocols is maintained.
- Contributed to the facility's 100% operational readiness during audits, playing a key role in maintaining security for critical infrastructure.

Lead Installer   **March 2022 – March 2023**

Precision Garage Doors | Virginia Beach, VA

- Led and trained a team of new hires in the proper procedures for garage door removal, installation, and repairs, ensuring high service standards and adherence to safety regulations.
- Independently handled complex installations, resulting in improved service efficiency and a 100% customer satisfaction rate.
- Oversaw maintenance and inventory management, ensuring all tools, company vehicles, and electronics were in optimal working condition.
- Streamlined logistics, including managing shipments and tracking inventory, contributing to enhanced operational efficiency and reduced delays.

Security Operations Supervisor & Training Manager   **November 2017 – November 2021**

United States Navy | Norfolk, VA

- Led law enforcement operations, managing security for military and civilian personnel, and overseeing evidence handling with attention to detail.
- Directed comprehensive training programs, overseeing personnel development, certifications, and performance evaluations to enhance operational readiness.
- Supervised security logistics for high-profile missions, coordinating with state and federal agencies to enforce security protocols and ensure mission success.
- Implemented counter-terrorism measures during Fleet Week New York, leading to the apprehension of foreign nationals attempting to disrupt national security.
- Managed and led a team of 30 personnel, overseeing daily security operations, risk assessments, and emergency response protocols to ensure the safety of military and civilian personnel.

TECHNICAL PROJECTS

My First PC Build   **2025**

Collaborated as part of the backend team to design and enhance an application aimed at educating users about PC components and PC building. Developed features including flashcards, informational content, and interactive matching functionalities to support the learning process.

PROFESSIONAL DEVELOPMENT

- Intern, Full Stack Development Team, TriSphere Apps LLC   **2025**
  Contributed to the development and enhancement of a mobile application using Android Studio. Participated in team meetings to pitch and brainstorm ideas, with a focus on increasing functionality and creating a more interactive user experience.
